Primary Area	Secondary Area	Comments
Addition		What happened to idea of offices in new addition?
Addition		No proposed plan to addition space past the 1st floor
Addition		What is going on on other floors of addition?
Addition		Passion - addition of new building - four levels
Addition		Architectural Features that complement the building like 7th street; elevator should go to boiler room, fellowship hall, up to 4th floor.
Addition		Elevator to all four floors, boiler room
Addition		Likes addition with all offices, administration there, have new building more than one floor.
Addition		Place office in Lafayette addition, "casket-sized" elevator to fellowship hall, boiler room
Addition		Dislike new addition in vacant lot.
Building		Keeping building clean and repaired - Passion
Clean	Sanctuary	Clean and de-clutter- Now patch and paint. Sanctuary seating upgrade as part of the long plan
Clean		Clean up the present church building and make it more appealing to everyone
Coat Room	Offices	Second floor needs coat room. Main office room in current library area.
Coat Room		No coat room.
Coat Room		No place to hang coats.
Entryways		Would like to help and declutter entryways of church to make them more bright and inviting. Paint, artworks, lighting
Fourth Floor		2 bathrooms boys/girls. Youth space designed by youth with guidance. Wireless access, café layout, kitchenette (youth use), open up rooms , high school kids are going to say we shoved them up to the only unrenovated floor in building.
Nursery		Move Nursery to 2nd floor
Offices	Sanctuary	I really believe the Sr. Pastor's office where s/he meets and counsels folk should be on the ground floor (personal exp). More lights in the Sanctuary
Outside	Music Rooms	Like to see benches and garden on Washington St. lawn started this spring. One music rehearsal room is enough since children and adults practice at dif. times - retain small dining room.
Outside		Garden/exterior lighting connection/visibility to local community. We are not an island!
Outside		Garden with pagoda. 1 large enough for wedding. Statue of Jesus w/child, labyrinth shade - lots of it. Pondless water feature.
Outside		Revive church lawn, prayer garden, gathering area, create an outdoor space "known" throughout R.O.
Outside		Like idea of changeable banners
Outside		Like idea of up-lighting the church
Outside		Like idea of improving the exterior
Outside		Adding lights for the church would be great - to light it up. Also, park would be awesome for bringing in the Downtown - I would really like to be a part of designing it.
Outside		Outside ideas were great - especially lighting and gardens. Also canopy over side door.
Outside		Like outdoor worship and lighting ideas
Outside		Outside garden is a good idea
Outside		Passion - seating/gardens in the front yard
Outside		Blinker/warning lights at street level crossing at rear
Outside		Signs indicating speed bumps - just don't install speed bumps
Outside		Suspend the canopy - no need to place pillars
Outside		Flood light on building showing people crossing street
Outside		Cable beneath st. pole erected in parking lot - lights installed

Outside		Instead of having all low-maintenance flowers/shrubs have some flowers that need care. Will give people something to do, start gardening group
Outside		Memorial Gardens, lights on the 7th street door, new canopy over Lafayette door. - Passion interested in the garden in front of the church
Outside		Really like the idea of having a garden with plants to pray outside the church.
Outside		Likes turning front lawn into park with cut-through from Pronto's to front of church.
Outside		Encourage public to enjoy our front lawn
Outside		Think a prayer garden and a more appealing outside would be nice.
Outside		An open, comfortable place to hang out outside would be great. Enjoy gardening/landscaping. Would definitely like to volunteer with that.
Sanctuary	Chapel	Immediate project: replace Sanctuary cushions. Immediate project: Chapel - remove pews, re-carpet, paint, use existing folding chairs. Multipurpose room -chapel, meeting, classes, physical activities.
Sanctuary	Clean	Our focus needs to be on the care and super maintenance of the facility that we have, starting with the Sanctuary. Clean up clutter, polish, paint.
Sanctuary	N/A	Reconfigure second level along the lines of the concept 1- give some preference to change in sanctuary
Sanctuary	N/A	Sanctuary seating with the chancel increased in size.
Sanctuary	N/A	My Passion would be sprucing up the Sanctuary: New Cushions to make seats more comfortable. Adding more color to the windows
Sanctuary	Offices	Better staff accommodations on the 2nd level More comfortable seating in the sanctuary including the control of the temperature (air conditioning too cold)
Sanctuary	Outside	Realistically - Maintenance on the Sanctuary, followed by garden on outside. (if they can be maintained)
Sanctuary		One thing to change: My passion would be the seating in the Sanctuary. I cannot sit in the seats without experiencing discomfort and pain due to back issues. Also the aisles are too narrow. The seats need to be hearing impaired friendly.
Sanctuary		Renovate the Sanctuary: Aisles-width, sound system, Chancel, Seats
Sanctuary		Lets replace the seating in the Sanctuary
Sanctuary		Patch and paint in Sanctuary. Seating, carpeting funds?
Sanctuary		Complete Sanctuary renovation (include narthex and tower entrance) Overall comments re: conceptual plans. Circulation/spacing adjacencies ????? Make it hard for visitors to find various spaces(Meeting rooms, administrative, etc.)
Sanctuary		Maintenance and update
Sanctuary		Redo the Sanctuary to make it more comfortable and inviting.
Sanctuary		Revise the Sanctuary to make it more inviting, roomy and comfortable. Keep balcony
Sanctuary		Chapel relocation and larger chancel area eliminates many seats that will be a problem if we intend to grow
Sanctuary		Like large chancel area for choir/performance
Sanctuary		Vision - addition of bright/colorful stained glass windows throughout
Sanctuary		Like the larger altar space in the Sanctuary
Sanctuary		Passion - expanded altar area and new seating (removable chairs and pews)
Santuary		Seating in Sanctuary and sound system - Passion
Second Floor		Adding Art to the building is another important factor, whether it be outdoor, indoor, or even an Art Gallery
Second Floor	Library	Moving the library to the office area will only answer that the congregation will not use it. It needs to be where/near the people are - and not just a storage area.

Second Floor	Social Hall	Why social hall & gathering space plus parlor on same level - isn't that duplication. Where would coat room be?
Second Floor	Offices	Dislike disconnect with administrative offices and rest of church
Second Floor	Social Hall	Switch nursery and Social Hall
Second Floor		Prayer lab.outside, nursery not inside door, office on second floor, social hall too small, moveable coat racks, keep chapel on second floor but expand., put office next to Lafayette entrance.
Second Floor		Nursery on sanctuary level, keep library on second level
Second Floor		Likes turning parlor in parlor, library, chapel, and meeting room. Likes nursery and toddlers room closer to Sanctuary. Don't need balcony anymore, don't need seats, just leave space for sound system.
Second Floor		Maintain what we have, redecorate sanctuary and replace cushions until broader renovation takes place.
Second Floor		Lighting in parlor - brighter lights, control sunlight in parlor, social hall too small.
Second Floor		Dislike all but some of sanctuary changes, bathrooms cannot be put off narrow way, nursery way too big, location poor - too close to outside doors and no bathrooms. Stage area too big, chapel not convenient, office should be easily accessible, lose only area for kids to play.
Social Hall	Nursery	I like the idea of the social hall on the second floor off the narthex-easy access for all, especially guests.
Storage		I also like the nursery on the sanctuary level for young families easier access Storage rooms will need dumpster to be cleaned
Third Floor	Youth Room	Dislike moving of youth room
Third Floor	Classrooms	Classrooms and music rooms are on different floors - move together
Third Floor	Offices	Dislike offices on the third level
Third Floor	Library	Dislike a separate room for library - why not combine with the Parlor
Third Floor		Dislike lack of storage for banners, historical records
Third Floor	Youth Room	Project I feel passionate about: Youth Room - place for high school students to gather for various activities that belongs to them. I feel this is a vulnerable group - if we get them into church activities (not always easy task for parents), we need to make them feel at home, welcomed, part of the place, need to have them feel we're very happy they're here since they're the future of the church. Don't think we should put them on 4th floor with beautification, updating, etc., not easily supervised up there. - Passion
Third Floor		Concerned about library being on 3rd floor - would not be used enough. Likes the new Lafayette addition.
Third Floor		Dislikes library on 3rd floor won't be used, 3rd floor meeting room across from planned library too small.
Third Floor		Eliminate balcony, library not on 3rd floor, cannot remove storage rooms
Third Floor		I'm a balcony person - grew up sitting in one and like being there now. Security and pastors working at night. Like outside plans and pretty much everything else.
Third Floor		Leave the youth room as is! We like it.
Third Floor		Think maybe the youth room should stay where it is because we just painted it.
		Create an alternative worship service to appeal to the local community.- Passion
